

MIRACLE
CHOICE®

Facilitator's Training Programme

Hello and Welcome!

We're happy and honoured to know that you're interested in doing the Miracle Choice® Facilitator's Training Programme. Our training is for those who feel inspired to expand their minds as well as helping others expand theirs.

Your decision to become a facilitator of the Miracle Choice Board Game is a miracle choice within itself. Your understanding and experience of the inner decision to choose love rather than fear is a gift you can bring to others. When you bring this gift to others within the game, you will continually make it more real for yourself and for them.

We believe that being a Miracle Choice® Facilitator is a beautiful work and extremely rewarding. You cultivate your spiritual alignment, support others with their own transformation, grow with the experience, have flexible working hours and can build your own clientele.

We hope that the information you find here will tell you everything you might want to know about the facilitator training programme we offer. However, if you still have questions, just get in touch with us writing to support@miraclechoicegame.com and we'll very be happy answer them.

You can also access our website at www.miraclechoicegame.com for news about the games, events, our blog and more.

About Miracle Choice

Miracle Choice® is a project by James Kelly, creator of the game, and his partner and wife, Cátia Vasconcelos, together with a small team of amazing professionals that share the same life purpose: to contribute to people's spiritual transformation and expansion as well as ours.

We love what we do and we are committed to helping you create what you love as well. With that in mind, after the birth of the Miracle Choice Game®, we created the facilitator training programme serving those who desire to take the game and its experience to the next level, for personal or professional use.

Our training will give you a solid foundation to apply the game as a powerful tool for self-discovery/knowledge in many contexts, creating truly transforming results.

"To be part of the Miracle Choice Game Facilitator Training was amazing in all aspects. I met fantastic people and learned with each one of them. Each step of the training, each item of the manual, each activity was designed with much love and care to serve learning, self-knowledge, love and professional growth. I left the training feeling capable of facilitating the game but also more fulfilled, more connected, more aligned with my purpose. I found even what I didn't know I was looking for!

The Game

The Miracle Choice Game® was created by James Kelly. He was inspired by the teachings of A Course in Miracles (ACIM) and by the desire to create a way that could offer people an experience of inner choice and its impact in their lives. The Miracle Choice Game® was launched in 2014 after a six-year creation process. Today the game is found in different countries and has already been translated from its original English version into five different languages: Portuguese, Spanish, Chinese, Dutch and Swedish.

The game is dynamic and versatile and can be played alone or in groups. The board represents our journey of spiritual expansion: always growing, learning together and moving inevitably in the direction of Love. Players can land in six different colour spaces – Needs, Body, Relationship, Identity, Choice and Miracles, before arriving at the Real World at the centre of the board. The cards have a combination of messages specially created for the game and inspiring quotes from ACIM.

What will I learn?

PURPOSE OF THE GAME

We'll discuss in-depth the key that defines the context for players to experience the basic miracle during the game: to choose Love rather than fear. This will be an important reminder that they choose in every moment how to feel and how to think. They decide what will be their life experiences and how they see the world.

MASTERING THE DYNAMICS

We'll explore in detail the presentation, structure, logistics, rules, preparation, the general dynamics of the game, how and where to play it and its different possibilities of use. You'll understand how and why the game is a simple and versatile inner growth tool and extremely powerful and transforming at the same time.

CARDS

We'll see the different types of cards, their purpose and the meaning behind the messages. The cards have a fundamental role in the game as it's through their messages that healing is stimulated.

FACILITATION

We'll cover the qualities and skills that allow a Miracle Choice® Certified Facilitator to offer a deep and rich experience to the participants of the game:

- Cultivating the space

Your aim as a facilitator is to offer the best possible experience of the game. That means you prepare yourself internally beforehand, connecting to the flow of Love and surrendering yourself to what needs to happen in a broader context. You'll learn how to cultivate a safe and nurturing environment for the participants during the game, keeping the connection to your inner guide so you can be present and available for yourself and others. These are essential tools to be a facilitator.

- Understanding of choice

During the training you'll understand better the source of our suffering and joy, explore the differences between facts and stories and question your belief system. This understanding will be really important for you as a facilitator so you can be congruent with the game purpose and the teachings of ACIM: that our feelings, thoughts and experiences are always a choice.

- Intuition and flow

The role of the facilitator is to be connected to his/her inner guide. He/she doesn't have the intention to fix anything but to simply allow healing and new perception to flow to the participants during the game, without an attachment to specific results. To be this kind of the facilitator is essential that you practice your spiritual alignment and listen to your inner voice as well as helping the players to connect to their own inner guides.

- Processing feelings

During the game players touch on deep questions of their lives and feelings come up. It's very important to know how to identify the origin of these emotions to then be able to support people. You'll learn to facilitate this process without interfering or judging, allowing each one to find their own answer. In the same way you'll know how to monitor and deal with questions that might come up for you as well during the game.

- Post game support

Your facilitation will have helped players to consolidate the new perceptions that came up for them during the game. However, sometimes there might be a request for support after the session. After the training you'll have enough knowledge and tools to offer this help or other type of ongoing support to the process, helping people to integrate change in their lives.

- The most important

To know that you don't lead the game but are a tool for healing that only needs to relax, align yourself and go with the flow of the cards. All is needed is to trust and remember that the game always guide people in the right direction, in the direction of Love.

What to do next

Before enrollment we have a brief online interview with those interested in becoming a facilitator of the game.

This is an opportunity for us to start getting to know each other and for you to know more about the role of the facilitator and to ask any question you might have. This way we'll make sure that taking part in the training is the right fit for everyone.

To book your interview please write an email to support@mircalechoicegame.com and we'll get back to you shortly to schedule our chat.

Looking forward to talking to you soon!
With love,

James & Catia
